or a personalized book for **\$26.00** through **May 17, 2024**

Reenrollment Packet Reminder:

Reenrollment packets have gone home! Please be sure to complete and return the packet(s) and 2024-2025 deposit to the Office no later than Friday, March 22nd. Contact the Office with any questions!

Sunscreen & Bugspray Reminder:

As the weather warms up it means it is time to begin sending in sunscreen and bugspray for your child. Please be sure to send your child's sunscreen and bugspray clearly labeled with your child's name. This is especially important for our Late Stay students as they will have increased outside time each day. Thank you!

Ms. Ginny's and Ms. Kelly's Toddler Class

We are enjoying learning all about farm animals and the sounds they make. Thanks so much to Declan's parents, Bryce and Tyler, for bringing chicks for the kids to see and pet. They loved it!

Reminder that your child will not need a lunch this Wednesday, March 13th. We will be celebrating Gordy's 3rd birthday with a pizza lunch provided by his parents.

Please remember that reenrollment forms are due by March 22nd. If there are any questions, please call Ms. Jamie in the Office.

Ms. Ginny

Ms. Shannon's, Ms. Kristin's, and Ms. Rachel's Toddler Class

We are continuing with our farm studies this week. Yesterday we had a lesson about the farmer. We talked about all the different jobs that they have. We also talked more about where different things grow. I told them that we would not have any food without farmers. This has started a daily discussion at lunch about what the different kids have and where it comes from. We even had one of them ask where pizza grows 😊.

I hope your child shared with you that we had some special visitors last week. One of Ms. Ginny's families surprised us with four baby chicks. The children loved getting to pet them. They were so sweet!

Please keep a watch on the weather. I know it's different every day. We go out early so make sure they have a jacket for the days when it's cold.

Ms. Shannon

Ms. Angie's, Ms. Karabeth's, and Ms. Ribar's Primary Class

With Spring right around the corner we are already preparing for lots of exciting events. We will be sending out a wish list soon in preparation of Gardening Day, so keep an eye out!

Also look for separate email to arrive toward the end of the week with more information (including special dates) pertaining to our class through the end of the school year.

Third Year families: We are looking forward to our annual Third Year field trip to the Creative Discovery Museum. The tentative date is May 3rd, but we will confirm this date at a later time.

Our Third Year students are also encouraged to attend the MSOR Science Fair on Thursday, April 4th at the Division Street Gym to show support for our Elementary students. Additionally, Third Year Primary students may also share their own science experiment/project, with parent and faculty help, that same evening. This is a great opportunity to allow your child to dip their toes into our Elementary environment as well as see what lies in store for your child. For more information, or if you would like your child to participate and have questions, please reach out.

Finally, we would like to extend a special "Thank You" to the Singleton family for bringing baby chicks to visit our classroom last week. The students loved getting to pet the chicks and learn more about them!

Ms. Angie

Ms. Ortrud's, Ms. Camela's, and Ms. Trudy's Primary Class

Dear Parents,

Thank you so much to the Singleton Family for visiting the classroom with their baby chickens last week. It was definitely the highlight of the week.

I also would like to thank Shawn's mom, Kayla, and Liam's mom, Tori, for volunteering to share their gardening expertise and to help transform our outdoor environment into a beautiful and relaxing spot. Everyone will get to participate on Gardening Day.

Please remember to submit your reenrollment paperwork to the Office by Friday, March 22nd.

Ms. Ortrud

Ms. Robin's, Ms. Dolores's, and Ms. Rana's Lower Elementary Class

We've been working on botany this week, and we'll be cooking and sampling different parts of the plant as we continue our studies. We'll be roasting root vegetables this Friday to eat with lunch. We are in need of some more vegetable peeling tools. If you have an extra that you could donate or loan, please send one in.

Please contact me if you are able to chaperone for our May 4-H trip.

Science fair projects should all be underway. I've enjoyed the texted photos of some projects already! Our next due date is Thursday, March 21st. Observations and pictures, if you are taking any for observations, should be sent in on that day for review. The students are excited and they love sharing their progress with us.

Have a great week,

Ms. Robin, Ms. Dolores, and Ms. Rana

Ms. Kathleen's Upper Elementary Class

We hope that science fair projects have been an enjoyable experience with your child. By now, you should have your supplies purchased, testing models constructed, and trial dates set. This week you can help your child by finalizing research and beginning to collect data.

This Friday we will be starting flower seeds to plant on gardening day. Thank you to Mrs. Jennie Pruitt for heading up this project. We're excited for the children to experience this hands-on botany project.

Thanks as always for your help and support!

Ms. Kathleen
