

Weekly Notes March 15, 2022

Office Notes

Reenrollment packets are being sent home this week! Please complete the required paperwork and submit your signed tuition agreement and deposit by this Friday, March 18th to secure your child's placement for the upcoming 2022-2023 school year.

Thank you,

Ms. Jamie and Ms. Melanie

Dear Parents,

Allow us to introduce ourselves; we are the MSOR LOGO Shop. We are a small micro-business startup in the Adolescent and Secondary Program.

Each year we are allowed to start a small micro-business and utilize it to teach ourselves entrepreneurship, accounting, management, procurement, and small business management. Our classmates have created and are running the Sweet Shop, Breakfast Box, Lunch Box, and now we join them with the LOGO SHOP. Yes, we might be a bit late to the game, but we hope to make up for it.

Our mission is to design and promote merchandise for MSOR. Our vision is to provide quality school merchandise that you will love to wear and show your school spirit. We are starting with two classic designs from the past and adding new designs and merchandise in the coming month.

We are starting small and look forward to growing our business in the coming months; for this reason, we cannot carry inventory right now. We are currently operating a made-to-order shop; for this reason, we have an order deadline. The merchandise will arrive two weeks after the deadline.

We currently have two shirt designs: The Dolphin has print on the front and back, and the MSOR Logo has print on the front. Please print and complete the order form below to order.

We appreciate your consideration and support; if you have ideas for our shop, please email us at adolescent_biz@msor.org.

Sincerely, Marissa Gonzales, Price Payne, Sophie Strickland, and Maddie Green

PLEASE HELP THE HOUSE OF THE CHILD
ROCKMART ACADEMY ESTABLISH A LENDING
LIBRARY. WE ARE LOOKING FOR GENTLY USED
BOOKS FOR TODDLER AND PRIMARY AGE
STUDENTS. THANK YOU FOR YOUR SUPPORT!

What we need:

***Children's books for
ages 0-6.**

Where to donate:

***Collection bins will be
placed in the lower
and upper buildings.**

Collection Dates:

***March 16-30th.**

Made with PosterMyWall.com

Thank you!

Ms. Ginny & Ms. Kelly's Class

We're having so much fun learning all about the farm!!! They are loving all the songs and we've busy making a few crafts!

Thursday is St. Patrick's Day! We will be serving green milk to the children! If anyone would like to send in a special snack for them, please let me know.

We are getting so excited to see all the farm animals that will be visiting us next Friday (25th)!! This will be such a fun day for the kids! Pray for beautiful weather!!!

Please remember our pick-up times are 2:15-2:25. Being in time helps the traffic flow so much better for Primary pick up!

Please remember our Spring break is the 1st week in April!!

Ms. Ginny and Ms. Kelly

Ms. Shannon, Ms. Rachel & Ms. Savannah's Class

We are having so much fun learning about the farm! The children absolutely love this unit. We have been discussing what we get from the animals on the farm and the various names of the animals and their offspring.

The weather is a little crazy right now. Please make sure to check the temperature at 8:30. We go out until 9:25. Please make sure to dress them appropriately and consider having them wear layers. It was too cool this morning to go out but they are out on the playground playing in late stay without their jackets enjoying the sunshine!

St. Patrick's Day is March 17th . We will have some special green milk that day. If you would like to send a treat in to celebrate please let me know.

A few reminders:

*make sure to send silverware daily

*library books are easily sent in the naproll bags on Monday to make it easier to remember and transport

***drop off is 8:20-8:30 (unless you have an older sibling in our older programs); we still have several people coming in too early and it is a imperative that we maintain ratio in the mornings.**

Thank you all for your help in making our classroom great!

Ms. Shannon, Ms. Rachel and Ms. Savannah

Ms. Angie, Ms. Sydney, & Ms. Anna Kate's Class

We had a wonderful International Day. I hope that each of you were able to check out our video in the email that was sent on Thursday. The children enjoyed the songs and the food and loved learning all the interesting facts about American Samoa. I learned a lot that I did not know. We have St. Patrick's Day on Thursday of this week. If anyone would like to send a snack in for the class to celebrate St. Patrick's Day, please let me know.

We will celebrate Aurora's birthday on Friday with a pizza lunch provided by her family. You do not need to send lunch on Friday. That is a great way to end the week. Science Fair is also coming up for the elementary classes. We love to be part of this. We enjoy visiting elementary and hearing about their projects and experiments. If your child would like to bring in an experiment and share with our class, we would love for you to share with us. Some examples would be an experiment about tension, changing water color, making slime, or even food related. There are so many experiments that would be short and easy but have valuable information that we could learn from.

Hope everyone has a great week!

Ms. Angie, Ms. Sydney, and Ms. Anna Kate

Ms. Valerie & Ms. Christina's Class

Hello,

We hope everyone enjoyed their weekend. We are incredibly proud of all the students and how hard they worked for International Day. It is not easy to memorize lines and say them out loud. This takes a lot of courage! We are amazed at how much information the children retained. Thank you, LaDonna Collins, for making a Thai dessert for the class. We really appreciated it and the children really enjoyed it.

This week we will begin to learn about weather, clouds, and the water life cycle. We will also talk about the history of Saint Patrick's Day. If your child has a book related to our studies, they may bring it in to share with the class.

If anyone would like to bring in a treat for the class for Saint Patrick's Day, we would greatly appreciate it!

Warm Regards,

Ms. Valerie and Ms. Christina

Ms. Dolores & Ms. Robin's Class

Last week we began the study of Europe, completing political and land and water form maps. We will study the biomes this week and begin to learn about the people, culture, and animals of the continent. The children are always so excited to start new continent studies. Please ask them to share what they are learning about Europe at home.

Science experiments should be well underway. This week, the assignment due is the observations page. This may exceed one page depending on the experiment. Please use diagrams, illustrations, and pictures to help show your work. They may make charts and/or graphs as they prepare to turn in their results page next week. The students will post them on the display board as they prepare to present their projects to the class.

Students should begin to prepare for their presentations by discussing the project at home on a regular basis. Ask them questions and help them to evaluate their observations as they complete the process. They should be able to explain the experiment to teachers and classmates, and if they practice and discuss it at home, they will be more confident presenting at school.

Ms. Robin and Ms. Dolores

Ms. Stefanie's Class

International Day videos have all been posted to Google Classroom! Everyone should be able to access them through the Classroom as long as you've joined through your child's student email account.

This Thursday the Observations page of the Science Fair packet is due. All experiments should be in progress or completed. Next Thursday, March 24th, the Results page and the tri-fold science board will be due along with any pictures, data, or charts for the board. Third year students also need to turn in the Research page on this day. On Friday, March 25th, students will begin assembling their boards in class.

March birthdays will be celebrated on Friday, March 25th. A birthday lunch will be provided by the Durbin, Smith, and Harrison families. Thank you all for providing lunch for students on March 25th. Happy March birthdays to Thomas, Charlene, and Levi!

Spring break will be Monday, April 4th through Friday April 8th.

Special Alert Several rocks, minerals, and fossils have gone missing from our Geology shelf work. If you notice any such items that you don't recognize have accidentally found their way into your home, could you please see that they are returned to the classroom? We miss having them on our shelves! Thank you!

Ms. Stefanie

Ms. Rebecca & Ms. Kaitlin's Class

Yesterday was National Pi Day! Students were able to measure and understand diameter and circumference of circles in honor of the day.

We have started our class read, Tuck Everlasting. The students are really enjoying the book so far.

Science Fair is our next big project. Students will need a large tri-fold board in black or white.

Have a great week!!!!!!

Ms. Rebecca and Ms. Kaitlin
